EU TYPE-EXAMINATION CERTIFICATE

n. AC: **25-255**

In realisation of the Regulation (EU) 2016/425 of the European Parliament and of the Council of 9th of March 2016 on personal protective equipment and repealing Council Directive 89/686/EEC.

CERTOTTICA SCRL

NOTIFIED BODY IDENTIFICATION NUMBER: 2008

considered the application for EU type-examination no. **D 2025-5037-1**, presented in date **23/10/2025**

CERTIFIES THAT

the Personal Protective Equipment

Personal protective equipment against falls from a height – Energy absorber with integrated lanyard(s)

model

A019

presented by

COFRA S.r.l.

Via dell'Euro 53-57-59 - 76121 BARLETTA (BT) - Italy

results to be in conformity with the applicable essential requirements included into Annex II of the Regulation (EU) 2016/425 dated 9th of March 2016.

The description of the Personal Protective Equipment model, the normative reference, the verification results and the description of the CE marking on the equipment are described on page 2. 3 .4 of the present document.

First issue date: **31/10/2025**

Renewal or revision date: **/**

Expiration date: **30/10/2030**

Longarone, **31/10/2025**

This document consists of no. 4 numbered pages.

The Director of the Notified Body

(Luca Tamburlin)

1. Description of the Personal Protective Equipment

Product designation: A019

Commercial trade name: COFRA

Product description: Personal protective equipment against falls from a height – Energy absorber with integrated lanyard(s)

Intended purpose: Element or component of the fall arrest system designed to dissipate kinetic energy that develops during a fall from a height

Model: A019

Reference code: See notes at page 3.

In Conformity with the Standard(s): EN 355:2002 and PPE-R/11.063 V2

PPE Category: III

Variants: Nine variants provided, depending by the total length, by the number of integrated lanyards (one or two) and by the model of integrated connectors (see notes at page 3).

Material(s) of the energy absorbing webbing: Polyester

Material(s) of the lanyard: Rope lanyard(s): Polyester (both sheath and core)

Stitching material: Polyester HT

Material(s) of connectors: Integrated connectors (main material): Steel

Energy absorber main dimensions: Energy absorption pack: 270 mm x 45 mm x 35 mm

Lanyard width/diameter: Rope lanyard(s) diameter: 12 mm

Total length: Depending by the variant: 1.5 m, 1.8 m or 2.0 m

Weight: Included in the technical file provided by the manufacturer.

Manufacturer's name: COFRA S.r.l.

Manufacturer's address: Via dell'Euro 53-57-59 - 76121 BARLETTA (BT) - Italy

Authorised Representative's name: /

Authorised Representative's address: /

Certificate's holder : COFRA S.r.l.

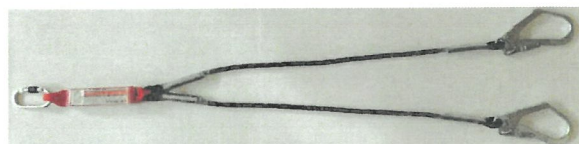

Holder's address: Via dell'Euro 53-57-59 - 76121 BARLETTA (BT) - Italy

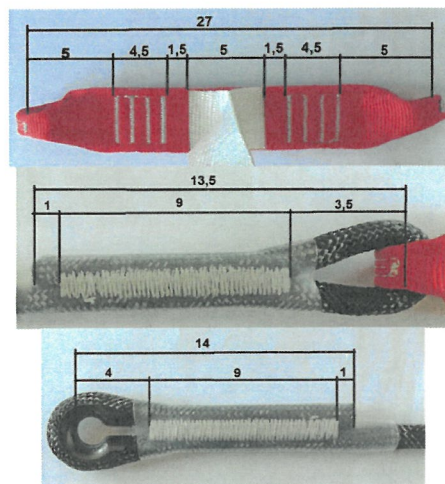

WEBSORB family

LINKAIM family

2. Levels of protection offered by the personal protective equipment and notes:

Applicable Standards:

EN 355:2002 - "Personal protective equipment against falls from a height - Energy absorbers"

PPE-R/11.063 Version 2

/

The protection equipment A019

is in conformity with the basic requirements provided by the standard(s) of reference for the particular fields of utilization the device is addressed to.

EN 355:2002

and PPE-R/11.063 V2

Moreover, the protection equipment is in conformity with the specific requirements provided by the connected norm for the particular fields of utilization the device is addressed to:

/

Characteristics of the protection equipment are:

Maximum rated load (vertical use only): 100 kg

/

/

Notes:

Energy absorbers of the family "A019" are elements of a personal fall arrest system intended to prevent the user from hitting the ground, a structure or another obstruction in a free fall situation and to limit to 6 kN the peak of load transmitted to the user when a fall from a height occurs.

These energy absorbers are suitable for the vertical use up to a maximum user's weight, including equipment, of 100 kg. These products are not intended for the horizontal use over an edge. To check the compliance of these devices to the applicable essential health and safety requirements the harmonized standard EN 355:2002 and the technical specification PPE-R/11.063 V2 have been applied.

Three product families provided, "WEBSORB", equipped with one integrated lanyard and with the connector code "A047-1000" from both sides, "LINKAIM", equipped with one integrated lanyard, with the connector code "A047-1000" from the energy absorption pack side and with the connector code "A075-1003" from the integrated lanyard side, and "ENVELOK", that is as the LINKAIM family but equipped with two integrated lanyards.

All families are composed by three variants depending by the total length, for a total of nine variants provided: **A019-1002** ("WEBSORB" family, total length 1.5 m), **A019-1003** ("WEBSORB" family, total length 1.8 m), **A019-1004** ("WEBSORB" family, total length 2 m), **A019-1006** ("LINKAIM" family, total length 1.5 m), **A019-1007** ("LINKAIM" family, total length 1.8 m), **A019-1008** ("LINKAIM" family, total length 2 m), **A019-1010** ("ENVELOK" family, total length 1.5 m), **A019-1011** ("ENVELOK" family, total length 1.8 m), and **A019-1012** ("ENVELOK" family, total length 2 m).

One only colour combination provided for all these products.

3. Test results and test examinations are covered by the following test reports:

Certottica Srl

d241650

04/03/2025

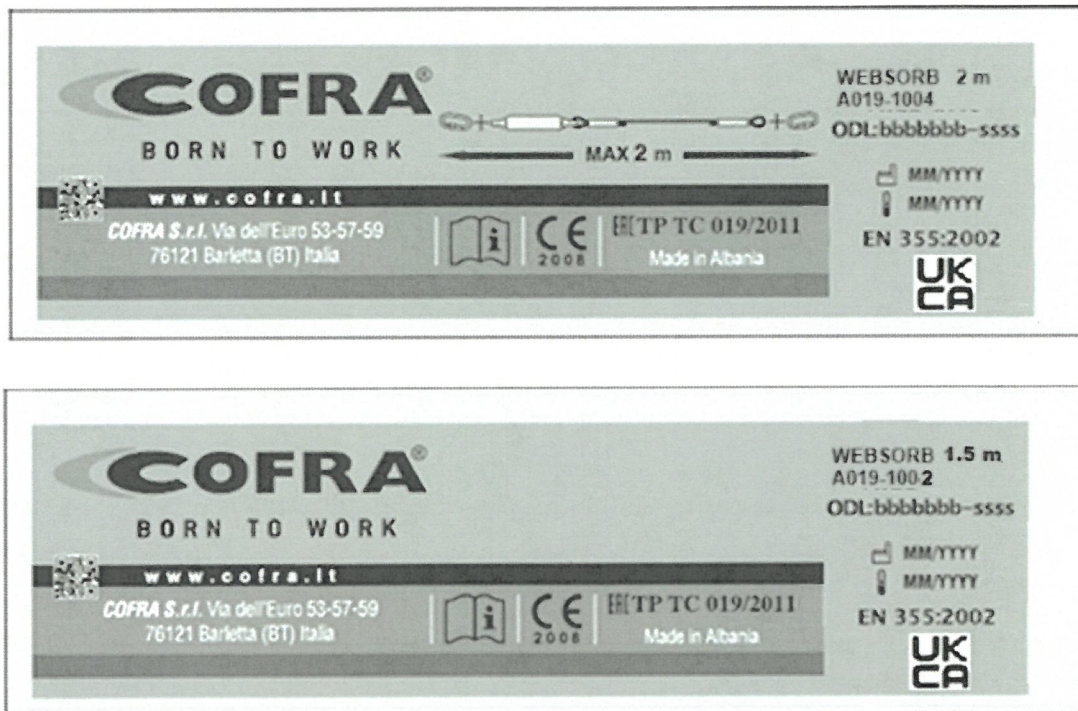

Dolomitcert Scarl

190780

10/06/2019

4. Marking

Placement of the marking: Label stitched on the energy absorption pack under the heat-shrinking sheath, dimensions 145 mm x 40 mm. The example above refers to variants code "A019-1002" and "A019-1004"; for the other variants, markings are the same unless the family name, the code and the total length (variants with a total length of 2 meters have an additional pictogram).

5. Declaration for category III personal protective equipment

For category III PPE, this EU Type-Examination Certificate shall be used only in combination with one of the evaluation procedures in accordance with Article 19, letter c), of the Regulation (EU) 2016/425

Applicability for the product covered by this EU Type-Examination Certificate:

YES

Terms and conditions under which the Certificate is issued

- Marking and instructions were examined in Italian. Language versions other than the one specified above are under the complete responsibility of the Manufacturer or of his Authorised Representative.
- Any variation to the product, to the technical file or, in the provided cases, to the manual or to the quality control procedures, shall be notified in time to CERTOTTICA.
- The Manufacturer or his Authorised Representative shall respect the procedures and the regulations provided by CERTOTTICA for the EU Certification.
- Copies of this Certificate, supplied to third parties, shall be reproduced in their entirety.
- The present Certificate shall be carefully kept by the Manufacturer to be shown, on request, to the Organism of control or to the Vigilance Administration.
- The present Certificate remains property of CERTOTTICA, which can ask for it back if some of the above mentioned conditions are not respected.
- Any subsequent revision of the present document automatically deletes and replaces it from the date of issue of the revised certificate (the start of validity, that is the renewal or revision date included at page 1 of this Certificate).
- The present document can include only a limited description of the product under certification; for a more detailed description, please refer to the correspondent Technical Documentation.
